about to buy gold in the London market. Secretary Foster of the Treasury Department has declined to issue the bonds under the assumption act, and to place them in circulation. In fact the issue has been already arranged for, and on Saturday last Drexel Morgan & Co. offered one-half the whole issue, or \$25,000,000, of bonds for sale at 100.

With much reluctance President Harrison gave his consent to the issue of the bonds as he has hitherto opposed most strenuously the issuance of bonds under the administration act. He is hoped to reach the same term without being compelled to do so. But the treasury's condition is said, had become so perilous that he finally realized the necessity of doing something to protect the gold and to have the means to pay a which might have disastrous results. Already the treasury would have been driven very close to the wall if New York bankers had not helped it out with loans of gold.

By disposing of these bonds in London the Government will diminish the stock of gold in the vaults of our treasury without diminishing the volume of our currency in circulation in this country. In other words the Government under this policy is going into the market to buy gold.

Somebody prefers to buy gold abroad and ship it to this country instead of taking it out of the banks of America.

What success has been met with in this London market is not known. It is believed that the sale of \$50,000,000 of bonds should be found advisable to dispose of the remaining \$25,000,000, or be disposed of at a premium of 3 per cent.

With all the commissions and charges taken out the Government should reach a little nearer the mark.

The bonds are 4 per cent, payable at the option of the Government ten years after date. They are what are known as "gold" bonds, but, of course, being sold for gold they will at maturity be redeemed in gold.

A DIPLOMATIC INCIDENT AT THE COURT
THE Czar.

London, February 19.—The British Foreign Office has been somewhat perturbed by an incident which has just occurred at St. Petersburg, which has not yet been reported in the English newspapers. It has, however, been discussed in the diplomatic circles of every European capital.

It happened last week at one of the grand court fetes given in honor of the Czar's new and suspected of carrying on intrigues against English India and Afghanistan.

The grand master of ceremonies, by accident or design, placed Sir Robert Morley, the British Ambassador, next to the Russian ambassador Sir Robert Bunsen, independently out of the room, saying that representative of the Empire, expressing that could not possibly give precedence to a third-rate Asiatic prince who was

guest and that we are accustomed to it as our vassals with a courtesy which the English are not in the habit of extending to their guests.

Since then the Amoor has had his revenge by concluding a treaty of commerce with Russia which will exclude India from the Central Asian markets.

NOW SULLIVAN WAS FISHED.

Sat. Louis, February 22.—How comes St. Louisans so much more avid than New Yorkers in fishing? I have seen many a fisherman here with his knowledge and belief. J. Sullivan was fished the night he entered the ring at New Orleans. He says: "The afternoon of the fight we had been examined by a prominent New Orleans physician, who pronounced me physically sound." The next morning, when Sullivan entered the ring, he exclaimed: "There's something wrong here. That's not the same man I examined this afternoon. He was right. Sullivan fought like a cow. He certainly has been whipped in two rounds."

"How was the fight?" asked we.

"He went up to go up to John in New Orleans; that Casey did not superintend. But the last meet he took before the fight got through without inspection." I was taken to Sullivan's room when it was brought in the hotel servant. I asked him how Casey was and the man said that both trainer and boxer were busy. "I think that meal did the trick."

THIS paper is now issued every day. The subscription is fixed at Five Dollars per annum delivered in Hongkong, or Eleven Dollars Forty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the merchants and securities necessary to place it on a business and profitable footing.

The proprietors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone—is almost limitless. It is on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners.
